

Presented by: Olivia Daly, Athy College
At the online Teachmeet 18th January 2022.

This is ideal for teaching new keywords and revision across all subject areas.

Using Google Drawings – an online tool to support T & L

1. Learning Outcomes

1. Develop digital skills through use of Digital Graphic Organizers / Google Drawings.
2. To add information in a digital format.
3. To work collaboratively or individually to complete exercise while maintaining social distance.
4. To use digital technology to access, manage and share content.
5. To express ideas digitally.

2. Time required to run this tactic

15 Minutes

3. Resources required

Digital Device, Internet Access, Google Drawings and Google Classroom.

4. Instructions for the teacher

- Create the template prior to the lesson.
- Share Graphic Organiser through Google Classroom, make sure to click 'Make a Copy for each student' (this will make sure your original template will never be edited)
- Monitor groups while working on task
- Gather feedback from groups / individuals
- Allow students to edit their work to add information that they may have missed while correcting
- You can check all of the work completed through Classroom

5. The Rules to be shared with the students

- Go to Google Classroom and open the assigned task.
- Complete assigned work (in groups or individual)
- Do not click 'Hand in' until the work has been corrected in class.
- When other groups / individuals are providing answers, add in any pieces of information you are missing.
- Click 'Hand in' work
- Use your completed graphic organisers for revision, they will be in Google Drive and available through Google Classroom.

6. Examples of lesson tools in which this tactic could be used - Teamwork, Understanding Risk, Flexibility/Adaptability etc.

- Teamwork / Group work
- Think, Pair, Share
- Independent work
- Across all subject areas
- Introducing new concepts
- Revision exercise
- Student Collaboration

7. Key Words to be highlighted:

Group Work, Digital Skills, Digital Graphic Organisers, Digital Placemat, Socially Distant, Student Collaboration.
